## Our Services

### Civil Work

At GAC Company, we deliver comprehensive civil work (**Building projects and Transmission Lines**) solutions that combine quality, efficiency, and durability. Our expertise covers a wide spectrum of construction services, ensuring every detail is handled with precision and professionalism.

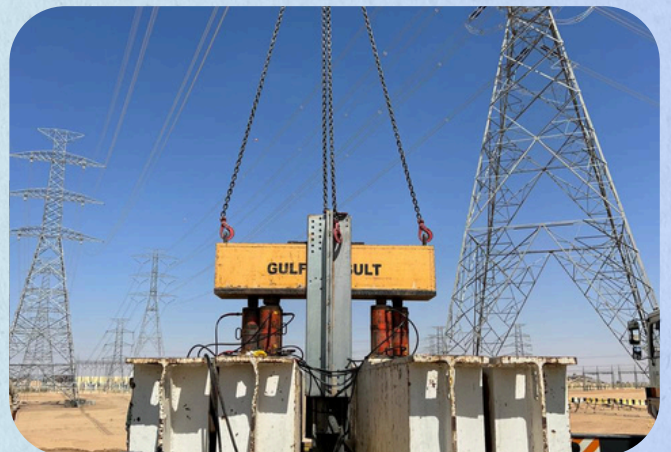

## Our works include:

- **Construction of Access Roads & Structure Pads** – Reliable development of roads and pads to support heavy structures and ensure site accessibility.
- **Structure Foundations (PAC, Pier, etc.)** – Durable and precise foundation works for power structures.
- **General Construction** – Complete building and infrastructure development.
- **Pipeline Construction** – Reliable installation and maintenance of pipelines.
- **Concreting & Carpentry** – Strong structural work with fine craftsmanship.
- **Masonry & Plumbing** – Durable masonry solutions and efficient plumbing systems.
- **Welding Services** – High-quality welding for structural integrity and safety.
- **Gypsum Board & Gyps Work** – Modern interior finishing for functional and aesthetic spaces.
- **Tiles & Marble Polishing** – Premium flooring solutions with flawless finishing.
- **Roof Laying & Finishing** – Long-lasting roofing systems with protective coatings.
- **Painting & Glazing** – Professional finishes that enhance durability and appearance.

## Civil Works

# Construction Services & Installation of Power Transmission & Distribution Lines

At **GAC Company**, we specialize in the construction, installation, and maintenance of power transmission and distribution lines. With extensive experience and technical expertise, we ensure reliable, safe, and high-quality execution of projects that meet international standards.

## Our Services include:

- **Steel Tower Erection** – Professional erection of steel towers with full compliance to safety and engineering standards.
- **Transmission Line Relocation, Rebuild & Reconductoring** – Expertise in upgrading, relocating, or refurbishing existing transmission lines.
- **New Transmission Line Construction (up to 380kV OHTL)** – Complete services from foundation, ground assembly, tower erection, and stringing.
- **Conductor & OPGW Fiber Installation** – High-quality installation of all types of conductors and optical ground wire (OPGW) systems.

Our **Electrical Works** division provides reliable, safe, and efficient solutions designed to meet the needs of modern infrastructure. We specialize in the installation, maintenance, and upgrading of electrical and telecommunication systems, ensuring long-term performance and safety.

[gulfadvancedco.com](http://gulfadvancedco.com)

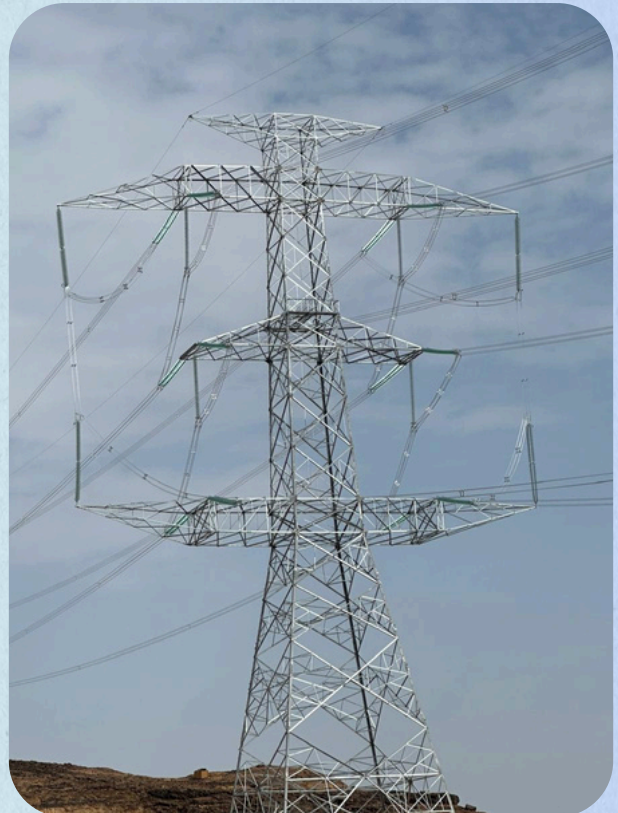

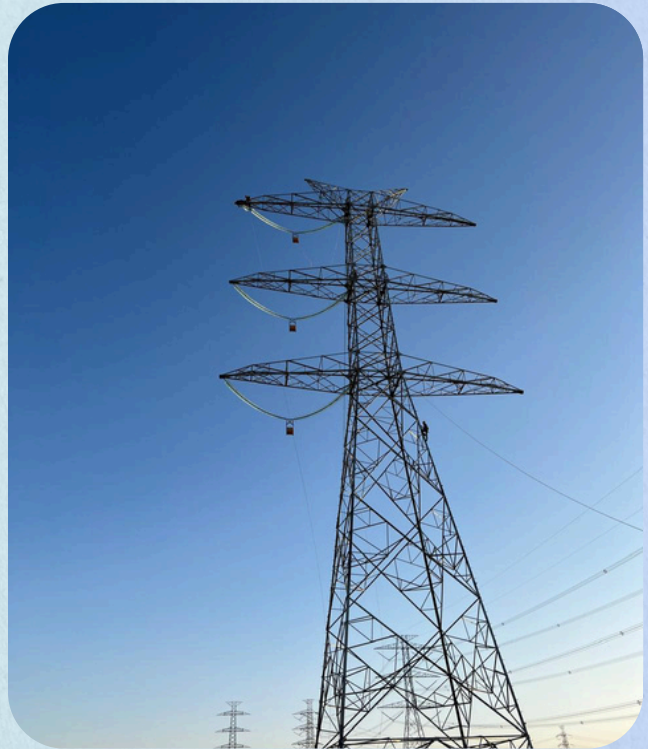

## Our electrical services include:

- **Electrical, Telecommunications & Network Wiring** – Complete wiring solutions for residential, commercial, and industrial projects.
- **Tower Lighting & CCTV Poles** – Installation and maintenance for enhanced visibility and security.
- **Firefighting Systems** – Installation and maintenance of electrical firefighting equipment for maximum safety.
- **Electrical Pipes & Cable Trays** – Professional installation for organized, safe, and efficient electrical and telecommunication systems.
- **High-Capacity Generators** – Installation and maintenance of reliable backup power systems.
- **Electrical Panels** – Maintenance, repair, and installation of advanced electrical panels for stable power distribution.

With a focus on quality, safety, and innovation, our electrical works ensure smooth operations and long-lasting reliability for every project.

# Transmission Tower Services

# Mechanical Works

Our **Mechanical Works** services are designed to deliver efficient, sustainable, and reliable solutions that meet the highest Construction standards. With a focus on performance and safety, we provide complete mechanical systems tailored to the needs of our clients.

## Our mechanical services include:

- **Heating, Ventilation & Air Conditioning (HVAC)** – Design, installation, and maintenance of energy-efficient HVAC systems for optimal climate control.
- **Plumbing Works** – Comprehensive plumbing solutions for residential, commercial, and industrial projects.
- **Firefighting Systems** – Professional installation and maintenance of advanced firefighting systems to ensure safety and compliance.

Through expert engineering and quality execution, our mechanical works guarantee long-term performance, safety, and client satisfaction.

## Mechanical Works

# Outside Plant Infrastructure

Our **OSP Infrastructure services** provide end-to-end solutions for building and maintaining reliable external network systems. We ensure high-quality execution with attention to detail, safety, and long-term durability.

## Our OSP services include:

- **Excavation & Backfilling** – Safe and efficient groundwork for underground utilities.
- **Asphalt Works** – Professional surface restoration and finishing.
- **Warning Tapes & Marking Posts** – Proper safety measures and identification for underground infrastructure.
- **Duct Banks** – Structured installation for organized and protected cabling.
- **Cable Pulling & Splicing** – Precise handling and connection of cables for uninterrupted performance.
- **Manholes** – Construction and installation of durable, accessible manhole systems.
- **Labeling** – Clear and systematic labeling for easy identification and maintenance.

With advanced techniques and skilled expertise, we deliver OSP infrastructure that ensures network reliability, safety, and efficiency.

## OSP Services

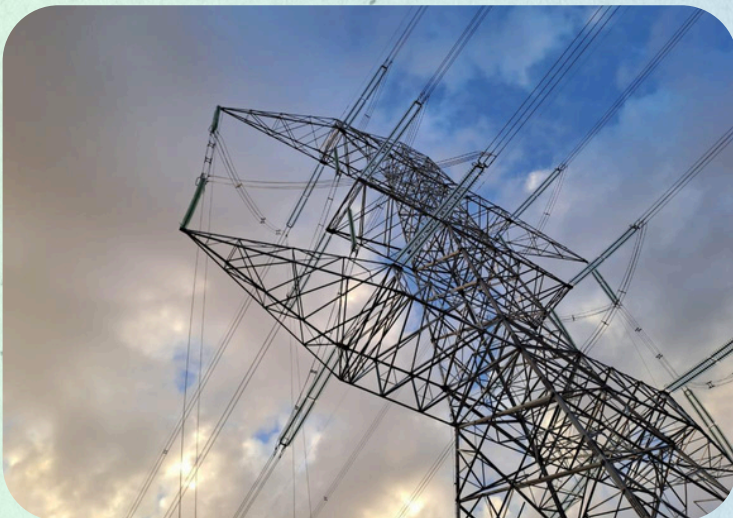

## Our Portfolio

Our portfolio represents more than completed projects — it reflects our vision of building sustainable, reliable, and world-class infrastructure. At **GAC Company**, we take pride in contributing to the progress of communities and industries through successful project execution across multiple sectors.
